

Community Update

> Transpacific is committed to being a good neighbour and working with nearby residents and businesses in the Homebush community to minimise the impact of our operations.

As one of the largest liquid waste treatment facilities in Australia, Transpacific was recently engaged to dispose of liquid waste from Orica's Kooragang facility.

The waste was transported to Transpacific's Homebush facility by Office of the Environment and Heritage (OEH) licensed waste transporters, with all movements fully documented in accordance with the law.

Transpacific's plant is licensed to treat a wide range of liquid wastes and is the only company to have a waste tracking system that has been approved by the OEH. Data from this system is transferred to OEH electronically on a weekly basis.

The waste received from Orica's Kooragang facility was transported and treated in accordance with the law in a manner that is prudent, lawful and in line with standard operating procedures.

At no stage was any member of staff, or the community, at any risk.

Residents with any questions or concerns regarding our operations, are welcome to contact Transpacific's 24 hour hotline on **1800 559 606**.

Please rest assured we will take your concerns seriously and ALL calls are registered and investigated.

If you would like to know the outcome of the investigation, please let our staff know and we would be happy to call you back once completed.

Like to know more?

Transpacific regularly hosts the Community Monitoring Committee (CMC) for residents and businesses surrounding our facilities in Hill Road.

The CMC is a forum for community members to discuss our facilities with staff members, ask questions, or raise concerns.

Membership of the group is open to any interested party, with meetings currently held on a quarterly basis.

The next meeting is due in the coming weeks so if you would like to register your interest in attending, please contact: Susie McBurney, NSW Regional Manager – Hazardous and Industrial, at susie.mcburney@transpac.com.au.
